The Daily Standard

Field Report 02 | 12 recipes from the eight stores | SUMMER - NOV | DEC | JAN

The hollandaise experiment

A field report from Hamish

A story about people, opinions and what our customers told us.

1. Homemade

In the early days of 63, I was convinced homemade was better.

One of the things we made ourselves was hollandaise sauce. Egg yolks. Butter. A stainless-steel bowl. A whisk. Someone in the kitchen making it by hand.

We had a recipe. We had The Daily Standard. What could possibly go wrong?

By the time we had eight stores, customers had started telling us something I didn't particularly want to hear. Our Hollandaise wasn't always the same.

We collected the recipes being used across the eight stores. Our Daily Standard recipe called for 100 grams of butter.

We found 12 recipes.
Eight stores.
Butter ranging from 50 grams to 200 grams.

Both the chefs and the accountants were certain they were right. Unfortunately, there was one person missing from the discussion. The customer. And I wasn't innocent either.

Homemade was better.

Egg yolks. Butter. A stainless-steel bowl. A whisk. Someone in the kitchen making it by hand.

2. The change

Then we met Wombat Valley Foods.

Wombat worked with us on the problem. What we needed wasn't the chef's hollandaise. It was the accountant's hollandaise. And, slightly disappointingly, it wasn't Hamish's hollandaise either.

We needed something our customers enjoyed that we could deliver with taste, speed, reliability and consistency. Today. Tomorrow. At once. At every 63.

Giving up homemade was difficult for me. I thought we were surrendering something special. But we made the change.

Wombat Valley Foods.
Great taste. Reliable supply.
Hollandaise sales doubled.

We watched.

Hollandaise sales doubled.

That was awkward. Particularly for me. The customer had just provided a considerably better piece of information than any of our opinions.

3. And now, Teji

The experiment continues.

Nearly 20 years after we started whisking egg yolks in stainless-steel bowls, our relationship with Wombat Valley Foods continues too. And now we're taking another step.

Our hollandaise will become Amokura Reserve Teji Hollandaise Sauce.

Teji was an important part of our kitchen in those early days. It seems right that his name comes forward with us.

Teji represents what we know today. Not because it's the final answer. After 20 years, I've become rather suspicious of the final answers. Tomorrow the field will tell us something else.

And we will be watching.

The Infinite Experiment.

There is something slightly addictive about the 63 Infinite Experiment. The hills matter. The valleys matter. Being wrong mattered.

Because every one of them gave us information we didn't have before.

Watch — Eyes up.
Connect — Human connection.
Deliver.— Something worth returning for.

Then watch again.

The Infinite Experiment continues.

The next chapter.

From the Field. For the field. Watch. Connect. Deliver.

French Toast

History of French Toast
French toast predates France. Romans-soaked bread in milk and fried it nearly 2,000 years ago. Europeans later added eggs and milk to rescue stale bread. The French called it *pain perdu* ("lost bread"). Variations spread throughout Europe. Today Cafe[63] continues the tradition by transforming good bread on the griddle.

The Day Alfie Beat the French
Paris, 26 February 2005. France led Wales 15–6 at half-time at the Stade de France. Then captain Gareth "Alfie" Thomas and his Welsh side came roaring back. Wales won 24–18 — a famous victory on their way to their first Grand Slam since 1978.

Welsh by birth. French by treatment. Alfie by name.

Oliver 10/5
Available in a full or half serve
Fruit toast with a French twist.
Fruit toast dipped in French toast mix, brought to life on the griddle and finished with maple syrup.
A little twist. A second life. Oliver by name.
